

DLVG-301 Installation Instruction

Mounting Process:

1. Locate the mirror at the desired height and mark the edges for profiles installation.
2. Attach the mirror profiles and secure them to the wall with screws.
3. Fasten the sink brackets to the mirror profiles. Make sure the mounting screws go inside the studs or any reinforcement behind the wall to withstand the weight of the glass countertop with the glass basin.
4. When placing the glass countertop on the metal pads make sure there are rubber gaskets in between the pads and the glass to prevent glass from scratching.
5. Connect trap to drain assembly. Hand tight to check alignment.
6. Secure the faucet in place. Connect hot and cold water lines.
7. Secure the towel bar on the sink brackets hooks.
8. Place the rubber gaskets before inserting the glass shelves in the mirror profiles.
